

Faculty Position in Feinberg School of Medicine and Center for Synthetic Biology

The Feinberg School of Medicine at Northwestern University invites applications for a tenure-track position at the rank of Assistant Professor in the Center for Synthetic Biology. Applicants should have a PhD and postdoctoral experience in a field related to synthetic biology and should have research plans that apply synthetic biological approaches to biomedical goals. Ideal candidates should also demonstrate strong communication and leadership skills, as well as an ability to contribute actively to a rapidly growing Center. Northwestern University has recently started the [Center for Synthetic Biology](#) as a university-wide initiative to formalize and grow Synthetic Biology as a research theme. Northwestern University offers superb start-up packages with a collegial and collaborative scientific environment that is rich with core facilities, robust cross-disciplinary graduate training programs, and diverse expertise.

Candidates should have a Ph.D. and/or a M.D. degree and postdoctoral experience. Salary is commensurate with experience and accomplishment. Northwestern University is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women and minorities are encouraged to apply. Hiring is contingent upon eligibility to work in the United States. Start date will be within the 2018-2019 academic year. Review of received applications will start December 15, 2017, and will continue until the position is filled. Please use the link below to submit a cover letter, curriculum vitae, summary of research experience, and future plans along with names and contact information for three references.

Department of Pharmacology
